

## RATE INCREASE MAKE POSSIBLE EQUIPMENT UPKEEP

150,000 DAMAGED CARS TO BE REPAIRED AT ONCE; NEW EQUIPMENT IS ADDED

(By United Press)

Washington, Aug. 4.—Repair of 150,000 damaged freight cars can begin almost immediately now that the railroads are assured of additional revenue from increased rates, Director Parmelee of the bureau of railway economics, announced here today.

"Fitting these cars into service will go far toward reducing the nationwide car shortage," Parmelee said. "It should make available more cars for transportation of coal, food and other necessities."

"Now that the interstate commerce commission handed down rate decisions the roads should be able to make far reaching programs for the repair and upkeep of equipment."

Wholesale repair of damaged cars probably will be the first direct result to the public, shippers and manufacturers of the rate increases.

The next direct result of the rate increase will be the addition of more cars through building, Parmelee added.

"There is every indication that the rate increase will enable roads promptly to increase their efficiency."

Bituminous coal prices will rise from fifty to sixty cents per ton after August 20, when the new freight rate advances go into effect, officials of the nation's coal association estimated today.

## ADDS MORE ROADS TO PRIORITY ORDER

(United Press)

Washington, Aug. 4.—The interstate commerce commission today amended the order giving priority to the transportation of bituminous coal to the northwest region so as to include three additional railroads to supply that territory.

Democratic National Chairman White commented on the fact that Hiram Johnson, extreme treaty opponent, and former President Taft, both approved Harding's position, admitting that the republican candidate has united all elements of his party, the statement said.

## HARDING FRIEND OF IRELAND

RAYMOND CLAPPER

(United Press Staff Correspondent.)  
Marion, Ohio, Aug. 4.—Warren G. Harding was described as a friend of Ireland, by Congressman Wm. E. Mason of Illinois, active in the Irish cause, following the conference with the republican candidate Sunday.

Friends of Ireland will oppose Governor Cox because of his pledge to support the wider foreign policies including Article X of the league of nations covenant, which would bind Ireland to England permanently, Mason said.

His endorsement of Harding's views on the league of nations was taken as indications that the republican candidate will oppose entering the present league should he be elected.

Plans for the front porch campaign may receive a further set back because of the sharp railroad increased rates by the interstate commerce commission. High cost of travel has already been used as an argument against favorite plans of Senator Harding.

## CENSUS FIGURES

(By United Press)

Washington, Aug. 4.—The census bureau today announced the following 1920 population results:

New Ulm, Minn., 6,745, an increase of 1,097, or 19.4 per cent.  
Sheridan county, N. D., 7,935.  
Slope, N. D., 4,949.

JOSE T. MELENCIO

Jose T. Melencio, a young Filipino twenty-six years old, scored a triumph at the Democratic national convention in his presentation of the desire of the Philippines for independence.

## NASH CASE TAKEN TO SUPREME COURT

(By United Press)

Minneapolis, Aug. 4.—All records in the case of Wm. M. Nash, deposed Hennepin county attorney, were ordered sent to the supreme court for review, the result of an issuance of a writ of certiorari by Judge Andrews, associate justice of the supreme court, late yesterday.

Under the writ all further proceedings have been stayed pending review for further court action.

The writ is returnable Aug. 30.

## REVOLUTIONARY COM. FORMED TO DEPOSE POLISH GOV'T.

(By United Press)

Zurich, Aug. 4.—A Polish revolutionary committee has been formed and has issued a manifesto urging the workers to depose the "Bourgeois government," according to a wireless message from Moscow received here today. There was no confirmation from Polish sources.

## ALLIED EFFORTS ARE LAUNCHED TO STEM BOLSHEVIKI ADVANCE

(United Press)

London, Aug. 4.—Allied efforts to halt the advance of bolsheviks into Poland were launched today while reds continued their march against Warsaw. Premier Lloyd George served a virtual ultimatum on M. Kamenoff, Russian trade commissioner, warning him that Britain would break off its negotiations with the soviets unless the drive was halted immediately.

Earl Curzon, secretary for foreign affairs, dispatched a strong note to Moscow. It was said he demanded a flat yes or no answer to the question whether Russia intends to oppose peace terms of the Poles on the field of battle. Meanwhile the bolsheviks are moving on toward Warsaw in several columns.

## COX WATCHING FOREST FIRES

(United Press)

St. Paul, Aug. 4.—W. T. Cox, state forester, is watching the peat fire situation in northwestern Minnesota. Thus far no extensive damage has been done. Crews have been put to work to prevent further spread.

## African's Attitude Toward Work.

The African male has peculiar ideas of his own dignity where work is concerned. He will work for a white man but he will never do anything for himself if there are any women about. It is beneath his dignity to work. He will fish and hunt, make nets and crude implements and canoes, or pass away his time smoking strong tobacco and dozing, but he would not think of lending his wife a helping hand. He compels her to cut down the trees for firewood and for his dugout canoes, and when they arrive at the spot in the forest or jungle where he decides to build his town the women must clear away the tangled forest. To civilized minds tree felling, wood carrying and jungle clearing are certainly laborious work for women, but an African woman knows nothing else, yet hers are much more healthful tasks than the white woman's.

## BOLSHEVIK TROOPS ARE NEAR WARSAW, CROSS RIVER BUG

AUTHORITIES OF CITY ARE MAKING PREPARATIONS TO DEFEND THE CITY

(By United Press)

London, Aug. 4.—Bolshevik troops have crossed the River Bug, the last natural line of defense before Warsaw, according to unofficial dispatches from the Polish capital received here today. There were no further details. The shattered and retreating Polish forces and the first armies were unable to offer effective resistance, it was said.

The bolshevik main line of advance is along the Byelostok-Warsaw railroad. They were reported to be shelling Lomza.

This was the day on which armistice negotiations were to have been resumed at Minsk. According to a wireless announcement from Moscow it was deemed unlikely that the parley would be taken up so early.

Advices from Warsaw indicate the city authorities were expecting the city will be attacked by the Bolsheviks. Preparations for a desperate defense were being made.

Meanwhile in London, a hostile attitude toward the Russia trade delegates now here, was beginning to become manifest due to the bolshevik action in repeatedly delaying the armistice which some officials consider an evidence of bad faith.

One of the Russian delegates have been ordered back to Russia on the ground that he is an undesirable alien.

The British cabinet, it was learned, has thoroughly discussed the bolshevik-Polish situation following news of the breakdown of armistice parleys.

## Delegates Return to Warsaw for Instructions

The Polish armistice delegates have reached Warsaw and are in conference with the ministry in regard to the demand of the bolsheviks to discuss peace terms as well as armistice terms. They are expected to start for Minsk where they were to have met the reds for another parley today.

A large red force was reported marching to seize the Polish corridor to Danzig and the coast cutting off Warsaw and railroads over which war materials are being carried.

Other unconfirmed reports were that Premier Lloyd George had sent a wireless message to Moscow demanding the probable soviet peace conference to be cancelled because of Russia's attitude in delaying the armistice.

In Armenia the reds were said to have taken Chirna.

## Bolsheviks Reach Bug River

London, Aug. 4.—The Bolsheviks have reached the River Bug on a sixty-six mile front, Russian official reports sent by wireless from Moscow, today announced.

## Britain Send Note to Bolsheviks

London, Aug. 4.—Britain has sent another note to the bolsheviks, it was learned today. It was very strongly worded and demanded a direct unequivocal answer. The best information is that it had a bidder on the London peace conference which the bolsheviks have ignored, and requested Polish armistice delegates to discuss peace terms in the field.

## Warsaw Evacuated by Allied Citizens.

London, Aug. 4.—The French and British missions had evacuated Warsaw, according to a dispatch to the Evening News today. Citizens of allied nations fled from the Polish capital yesterday.

## RIOTS FEARED IN BERLIN BECAUSE OF DISARMAMENT

Berlin, Aug. 4.—Riots were feared in Berlin today as workmen, many of them armed, gathered for a meeting in the Lust Garten to protest against the new disarmament law. Leaders of the demonstration declared the law was aimed at workers exclusively and they advised their followers to bring arms to the meeting.

**Joyous Fire Drill.**  
The managers of a babies' home to Portland, Ore., have made fire drills a real delight for the children by installing a zinc-lined chute reaching from the second story to the ground.

MRS. JAMES M. COX

Mrs. James M. Cox, wife of the Democratic candidate for president. This photo of Mrs. Cox was made at the governor's home, "Trail's End," near Dayton. Mrs. Cox was Miss Margaretta Blair of Chicago. She married the governor about three years ago.

## FORTY-ONE OUTLAW SWITCHMEN INDICTED

(By United Press)

Chicago, Aug. 4.—The federal grand jury today returned indictments against forty-one members of the Chicago Yardmen's Association and United Enginemen's Association for alleged violation of the Sherman anti-trust law and Lever act. The men were charged with participating in the "outlaw" railroad strike of last March.

## Names Not Made Public

The identity of those indicted was not made public. Officials expect it to be made public when the indictments are returned in open court, probably late today.

It was generally believed the indicted men include the twenty-seven railroad workers who were arrested at the time of the strike and who have escaped prosecution so far. They include John Grunau, head of the yardmen, and H. E. Reading, head of the enginemen.

## KANSAS PRIMARY ELECTION RETURNS

(United Press)

Topeka, Kansas, Aug. 4.—Governor Henry J. Allen and United States Senator Charles Curtis, have a lead over their opponents for renomination on the republican ticket in the statewide primaries in scattered returns early today. The democratic vote was light.

## Allied Delegates Appear Pleased After First Conference at Spa

The leading Allied delegates are shown leaving the Frainseuse villa after the first meeting with the German representatives. Left to right: M. Francois Marshal, French Minister of Finances; Lloyd George, Premier

## MINERS BACK TO WORK TOMORROW

(By United Press)

Springfield, Ill., Aug. 4.—President Frank Farrington of the Illinois miners union, announced today that "All of the miners will be back to work tomorrow."

He declared his assertion was based on a large number of telegrams received from the different sub-districts.

He denied the news that a widespread effort was being made to keep the miners from working.

## Lewis Denounces President of Kansas Miners

Indianapolis, Aug. 4.—Definite action toward ending the unauthorized strike of coal miners in Kansas was taken by John L. Lewis, international president of the United Mine Workers, today.

Telegrams were sent by local unions and other officials, to Alexander Howatt, president of the Kansas miners, denouncing him in strong language for alleged charges of fostering and fomenting strikes.

## Coal Production Normal

Terry Haute, Indiana, August 4.—Coal production in Indiana was rapidly approaching normal today.

Most of the mines in southern Indiana were operating and the strike was nearing an end.

## CHILDREN REFUSED MEDICAL AID DIE OF DIPHTHERIA

(United Press)

St. Paul, Aug. 4.—Authorities here today were investigating the death of two children of Mr. and Mrs. Charles Scoville, of this city.

The children, Harold 17 and George 3, suffering from diphtheria, were refused medical aid because of religious scruples.

Harold died last Thursday and George this morning.

Citizens called the health department officials and the case was turned over to the coroner.

## BANDITS KIDNAP STANDARD OIL MAN

(United Press)

St. Paul, Aug. 4.—G. E. Martin, collector for Minneapolis oil companies, was kidnapped by four unidentified men late yesterday while driving an automobile to a bank to deposit money collected from various filling stations throughout the city.

After being compelled to drive to a suburb, Martin threw the men from the car and escaped. The robbers obtained no loot.

FRED K. NIELSON

Fred K. Nielson of Nebraska, who has just assumed the office of solicitor of the department of state. Mr. Nielson has had extensive experience in matters pertaining to international law and diplomacy.

## FILTERED RIVER WATER SAFE AS LAKE WATER

(By United Press)

St. Paul, Aug. 4.—Water pumped from the Mississippi river at Fridley, Minn., and properly filtered would be just as safe as lake water, according to director of the State board of health, G. W. Kilsley, and superintendent of the St. Paul water department.

Mr. Kilsley discussed the St. Paul water supply and said there is an immediate need of an increased supply in order that there be no danger during a comparatively dry year.

## MEXICO WILL PROTECT AMERICANS IN LOWER CALIF.

(United Press)

Washington, Aug. 4.—The Mexican government has informed the American embassy at Mexico City that every possible precaution will be taken to protect Americans in Lower California and safeguard their property in the vicinity of the border, the state department announced today.

The precaution will be taken in view of the present situation between the Mexican government forces and forces of Governor Cantu of Lower California, who is in a rebellion against the De La Huerta government.

The assurance of the Mexican government includes representatives by the state department for the protection of the irrigated canal serving the Imperial Valley in California, it was announced.

## WAYNE CO. BOOSTERS CALL ON HARDING

(United Press)

Dayton, Ohio, Aug. 4.—Five hundred Harding boosters from Wayne county, Ohio, near here, were making a pilgrimage to Marion today, the second delegation to call at the front porch of the republican presidential candidate since he accepted the nomination.

An itinerary of four trips extending to the Pacific coast, the Atlantic coast, Minnesota in the northwest and Tennessee in the south, has been prepared by party leaders.

## REDS MUST HALT ADVANCE ON POLAND WARNS LLOYD GEORGE

(United Press)

London, Aug. 4.—Unless the red armies halt their advance against Poland, Britain will break off negotiations and work toward recognition of the bolsheviks, Premier Lloyd George warned M. Kamenoff, soviet delegate, this afternoon.

## Short Rations.

In an English school the penny savings bank had been introduced to encourage thrift among the children. Mrs. Higgins had given little Arthur 3 cents to put in the bank, but on the way to school Arthur had been tempted and had fallen. On his return home his mother looked at the entry and said: "Why, Arthur, there's only 2 cents marked down here; how's that?" "Aye, mother, said the boy, "th-that's all the ink the teacher had!"

## FARMERS MUST PAY LOANS WHEN GRAIN IS HARVESTED

ACCORDING TO RULING OF FEDERAL RESERVE BANK OFFICIALS TODAY

(United Press)

St. Paul, Aug. 4.—Farmers in the ninth federal reserve district this year will be called upon to meet their obligations immediately after their grain is harvested instead of waiting until fall as has been the custom, Governor Roy A. Young of the Federal Reserve Bank of Minneapolis, ruled today.

The reason for the press on the farmers for early payment is the strange weather situation which is general.

Federal reserve officials believe early payment of the grain loans will cause little inconvenience for farmers and at the same time makes the funds available for other uses and will be much in advance of that which has been the custom. The loans include those made by member banks.

## NEW RATES ARE INADEQUATE

(By United Press)

St. Paul, Aug. 4.—Increase in the volume of business necessitating expansion and improvement in Tri-State Telephone and Telegraph Companies, have been so great that the recent advance in rates are inadequate to provide for them, according to President G. W. Robinson, testifying before the state railroad and warehouse commission late yesterday.

## Hearing on Valuation

St. Paul, August 4.—Hearings on the valuation of the Tri-state telephone property were resumed today by the state railroad and warehouse commission.

H. Enlighten testified in relation to relation to telephone property.

F. W. Putnam, commissioner, conducting the hearing, said it was unlikely that any reports will be made as to new rates this year.

## OSCAR MARTINSON TO TESTIFY IN WM. NASH CASE

(United Press)

St. Paul, Aug. 4.—Oscar Martinson, former sheriff of Hennepin county, today was brought in to testify against Wm. Nash, deposed county attorney, on a bench warrant. Martinson had previously refused to testify.

The county commissioners will meet this afternoon to decide whether a new county attorney should be chosen.

## HARDING WILL TRY TO BRING RATIFICATION

(United Press)

Marion, Ohio, Aug. 4.—Warren G. Harding today promised to bring pressure upon republican leaders in Tennessee to secure ratification of the woman's suffrage amendment, according to Mrs. Abbie Scott Baker of the national woman's party, who conferred with the republican candidate today.

## COX GETTING READY FOR ACTIVE WARFARE

(By United Press)

Dayton, Ohio, Aug. 4.—Governor Jas. M. Cox expects this week to complete his campaign organization in order that it may be ready for active warfare as soon as the formal notification ceremonies of August 7 close.

The democratic campaign committee will be announced Thursday after Cox confers with George White, chairman of the national committee, as to their campaign arrangements, it is understood here. The nominee also hopes to have a tentative itinerary and campaign plans completed this week.

## PRELATE MAY LAND AT LIVERPOOL

(United Press)

London, August 4.—Archbishop Mannix will be permitted to land in Liverpool upon his arrival from New York, it was learned officially today. If he seeks to visit Ireland he will be halted.

## THE WEATHER

Forecast for next 24 hours:  
 Minnesota—Fair tonight and Thursday, probably preceded by local thunder showers this afternoon or tonight in the east portion, cooler in the west and north portion.  
 Cooperative observer's record  
 6 p. m.:  
 August 3—Maximum 86, minimum 58. Reading in evening 65. Southwest wind. Cloudy.  
 Rain. Precipitation 0.36 inch.  
 August 4—Minimum during then light 58.

## LOCAL NEWS NOTES

Mrs. William Dougherty is sick in St. Joseph's hospital.  
 The Staples World has installed a Cottrell newspaper press.  
 Crystal spring water, \$1.50 month. L. Bourassa, Telephone 13.  
 M. Scallen of Brainerd was a Bemidji visitor.—Bemidji, Daily Pioneer.

## AMERICAN LEGION

A meeting will be held at Koop's Hall tonight at 7:30. All members are requested to be present. Important.

Miss Mignon Branchaud motored with friends to Pine River this afternoon.

David Cohen of Minneapolis, brother of Henry I. Cohen, is visiting in the city.

Miss Katherine Stein of Sioux City, Iowa, is visiting her parents, Mr. and Mrs. H. Stein.

## BENEFIT DANCE

The Trades and Labor Assembly will give a dance at Lum Park on Friday evening, Aug. 6th, for the benefit of the striking telephone operators. Tickets \$1.00. Everybody welcome.

Mr. and Mrs. William Rondeau of Somerset, Wis., are guests of Mr. and Mrs. J. A. Juncas.

A. P. Nordstrom will soon leave for Harlow, N. D., where he will run a threshing engine.

W. C. Mannis injured his right thumb in an accident at a service station in Little Falls.

The Peach season is about two weeks earlier this year and the best peach for canning is on the market now. Our first car of California Elbertas arrived this morning. The wise housewife will do her preserving now. Your Grocer will fill your orders at a reasonable price. Phone him your orders.

## BRAINERD FRUIT CO.

E. C. Bane has enlarged the display room and office at his place of business in the Bane block.

Harry Farnham of Brainerd has been a guest at the Paul Birkholz home for a few days.—Staples World.

St. Cloud police Monday started on the eight hour plan which has been favored by the mayor since his taking office.

Hall Music House. Home of the Famous Pathe Records.

Miss Julia Wood went to Brainerd Monday for a visit at the home of Mrs. Ed. Murphy.—Little Falls Transcript.

Mrs. A. J. Frey of Minneapolis and children is a guest of her brother and sister-in-law, Mr. and Mrs. B. C. McNamara.

Old timers in Little Falls will form an organization. The first thing on the program for recreation is a game of horse shoes.

Velvet Ice Cream. A gallon or more delivered. Phone 450. Brainerd Creamery Co.

Guests of Mr. and Mrs. F. R. Ziske of the Beare block, were Mr. and Mrs. Ross Dunphy and Mr. and Mrs. C. H. Tidd of Little Falls.

"Attend the College of Commerce, St. Cloud or the Little Falls Business College, Little Falls for a college education in business. Send for free catalog." 26-fsm-2m

E. G. Ingalls of Minneapolis, is in the city and working with R. E. Stephenson, both being Kelley-Howe-Thompson salesmen.

Mr. and Mrs. Leo Frazer and party of friends motored from Trommald to Brainerd yesterday and visited relatives and friends here.

Brainerd's rain of early Tuesday morning did not even extend into

Crow Wing or Long Lake townships south of the city limits.

Mrs. M. E. Stanner came up from Brainerd Friday to visit her mother, Mrs. J. D. Clary, and returned home Saturday.—Staples World.

Mr. and Mrs. E. B. Hodges and daughter Altha of Bath, N. Y., are visiting at the home of relative, Mr. and Mrs. James S. Gardner.

Business places and homes suffered from lack of gas Tuesday. The company claimed the city had shut off water and thus retarded the gas plant.

Why not use the want ads to sell some of the second hand furniture that is cluttering up the house. It would be easy money and cost but little.

Mrs. W. F. Kunitz and family, Mrs. A. Hagberg and family, Mrs. F. C. Cook and family, are guests of Mr. and Mrs. A. L. Alexander at their summer cottage at Nisswa.

Dispatch want ads cost but a cent a word each insertion. They solve the small worries of life. Telephone the Dispatch, Northwest 74, or mail the ad or have it sent to the office.

The Elks have their regular meeting of the month on Thursday evening, August 5. Past Exalted Ruler Fred J. Sanborn, delegate to the national convention at Chicago, will give a report.

Guests of Mr. and Mrs. E. O. Webb at their summer cottage at Green Gables on Portage lake, are Miss Lois-dell Caine, Miss Elsie Walton, Miss Irma Walton and Bob O'Brien, who motored from Morris.

John Elliott, of Minneapolis, of the firm of J. & W. A. Elliott, general contractors for the new court house, was in the city and inspected the work. Maurice Fitzgerald, secretary of the company, is expected this week.

Russell & Bayer have received further restaurant equipment and supplies and expect to open their N. P. lunch room this week. This lunch room will be conducted in addition to their West Cafe in the iron Exchange building.

Eugene Felix, age 33 and single, a farmer of St. Mathias, died of dropsy and the funeral was held this afternoon from the B. C. McNamara chapel, with interment at St. Mathias. He left a brother George of Crov Wing and sister, Mrs. Cosette of Brainerd.

Wm. Schlange has bought the house at 624 Maple street and will build a cigar factory at the back of the lot and open business about Sept. 1. Mr. and Mrs. Schlange spent some months at their summer cottage on Round lake and have again removed to Brainerd.

Twenty-five years ago there was a big log jam at Brainerd and extending northward some distance above the dam. After hard work it was reduced from 22 to 11 miles in extent. A drive was then run between St. Cloud and Elk River, the head of which was quickly in Minneapolis.

Quinn Parker and family of Fort Madison, Iowa, are at their summer cottage at Merrifield. Mr. Parker is a brother of Sam Parker and in the early days here was a storekeeper of the Northern Pacific railway company. He is now a storekeeper of the Santa Fe railway at Fort Madison. Mr. Parker was in the city here busy renewing old friendships.

Directors of the Brainerd baseball club will hold their regular weekly meeting this Wednesday evening. Pro-

gress will be reported on the Fat vs. Lean baseball game which the directors are staging for Sunday afternoon, 3 o'clock, Aug. 8, at the Koering grounds. Further reports will be made on the financial canvass. The meeting will be short and to the point, and will be presided over by Mayor F. E. Little, chairman of the board of 20 directors.

Ask your dealer for Velvet Ice Cream, the best made. Manufactured by the Brainerd Creamery Co. Tel. 450. 299tf

## CASH MEAT MARKET

 Rib Roast 15¢  
 Pot Roast 12 1/2¢  
 Rib Boiling Beef 8¢  
 Home Rendered Lard 24¢  
 Picnic Hams 25¢  
 These prices are good only until this lot is sold.

Come Early  
McGINN & BABCOCK

At the Louis Hohman confectionery store a large soda fountain is being installed by C. B. White. The back bar is a beautiful piece of work and extends 20 feet along the north side of the room. It has a beautiful plate glass mirror. The marble walls of fountain and bar are being set in position today. The equipment was ordered by Mr. Hohman early in January but delays in manufacturing and shipping caused half a year to elapse before it was received in Brainerd.

Alderman Frank Heywood of Minneapolis, who has a luxurious summer home on Gull lake, bought some \$3,000 worth of furniture, etc., from the Northern Home Furnishing Co. Brainerd can be commended on having a mercantile institution which can supply the wants of Minneapolis men in competition with the Mill City. The company has also sold much furniture in outlying towns and districts and the truck is kept busy traveling to Pequot, Nisswa, Ironton and other points.

## Made a Change in Her

Mrs. L. Gibson 12th & Edison St., LaJunta, Colo., writes: "My kidneys were giving me a great deal of trouble. I took Foley Kidney Pills and they made such a change in me I feel fine." Foley Kidney Pills promptly relieve backache, rheumatic pains, sore, swollen or stiff muscles and joints. H. P. Dunn druggist.

## Not Appreciated.

At one of the chaplaincies abroad the chaplain was a somewhat dour elderly Scotsman who persistently resented an innovation in the service. A generous and wealthy member of the congregation, thinking it would be desirable to have the lesson read from a lectern instead of from the prayer desk, presented the church with a handsome brass one in the form of an eagle. The minister, however, did not take kindly to the lectern, and declined to use it the first morning, but toward evening he relented, and at the close of the service he astonished and entertained his congregation by solemnly making the following announcement: "I give notice that on Sabbath next the gospel will be read from that burred."—Edinburgh Scotsman.

## Keep Up to the Mark

Good health is impossible when the kidneys are weak, overworked or diseased. When they fail to filter out of the blood the poisons and impurities that cause sore and swollen muscles and joints, backache, rheumatic pains, take Foley Kidney Pills to give the help they need. H. P. Dunn, druggist.

## Had Lots of Pluck.

George Thibault, proprietor of the summer hotel at Outlet, a village a few miles from Picton, Ont., was driving his car towards home recently when he chanced to meet a herd of cattle. The owner of the auto slowed down to allow the animals to pass without undue excitement. All went well till he met the leader of this large bovine family, a splendid young roan bull. The latter resented the presence of the mechanical contrivance bearing down through the herd on low gear. Lowering his massive head, he charged, resulting in only a few bruises to himself, but a twisted axle, a badly bent fender and a smashed headlight to the unfortunate motor. As Mr. Thibault inspected the damage he remarked emphatically: "I certainly admired his pluck, but he showed poor judgment."

## Ice Cut With a Gas-Driven Saw.

For the purpose of cutting ice expeditiously during the last winter, there was devised a saw of an automobile type power plant and a circular saw at the end of an adjustable arm, so that the saw can be raised and lowered to the desired degree. The saw is pushed along on steel runners, the operator behind furnishing the motive power. A double lever arrangement just over the handle bars serves to control the raising and lowering of the saw. The portable saw in question cuts the ice into 20-foot squares. These squares are guided through the water to a gang of four circular saws, which cut the squares into the regulation sized cakes.

## The Airplane in Politics.

Mr. Holman, the former New South Wales premier, rejoices in the huge electorate known euphonically as Cootamundra. On the eve of a very warmly contested election, Mr. Holman recognized that Cootamundra had 18 large centers, each of which required a personal canvass in order to insure the return of its present able representative. He announced, therefore, that he would use an airplane to cover the electorate. Not to be outdone, his labor opponent at once made plans to drop propaganda by airplane over Mr. Holman's route.

## Heat-Insulating Material.

A new heat-insulating material composed of a mixture of a special clay and cork has been discovered by a Norwegian engineer. The clay and cork mixture is burned and the result is the formation of a very light substance that is said to be eminently suitable for all heat-insulating purposes.

## Little Money Saver Says:

"Wear-ever" Aluminum ware costs no more than other brands. We sell it, despite the fact that we could make more on other brands, because actual use in Brainerd homes has proven that "Wear-ever" Aluminum gives best satisfaction. Once you use it, it will be easy for you to insist on "Wear-ever".

## Last Word in Summer Frocks

THE story of summer frocks draws toward its close and it has been an intricate and much-embroidered tale. Will this furor for embroidered hold over in fall styles or will it give place to some other form of elaboration or will we return to the simple life and affect plain frocks? No one except the powers that design behind the scenes is able to make it guess, but here is a late summer gown without a vestige of embroidery on it. All that is left of the endlessly ingenious stitchery that has adorned everything this summer, is a mere trace of it in five rows of stitching at the bottom of a very long smock—or is it a coat.

But the model shown above is a late summer dress—not even a straw in the wind for autumn. It is a pretty affair in a soft silk, maybe crepe-de-chine or something equally supple having a plain and comfortably wide skirt with a four-inch hem headed with a group of four narrow tucks. The interest-

ing things about the overgarment are the plaited skirt of it set on a plain bodice three inches—and more at the front—above the waist line, and the odd new sleeves. These are elbow length with a flounce set on at the back under a strap of heavy satin ribbon finished with a buckle. There is a narrow girdle made of the ribbon and fastening with a buckle at the front and a sailor collar of satin, the combination being just what one would expect in July and August, a happy union of black and white with the black playing a minor role.

The hat reverses this order of things, being of black crepe with white satin facing. It has an unpretentious pattern in white yarn applied to the crown and a small flat tassel of yarn at the side.

## Swedish Lutheran Aid

The Ladies Aid of the Swedish Lutheran church will meet at the home of Mr. and Mrs. Andrew Erickson two miles east of town Thursday afternoon at 4 o'clock. Those having cars will kindly see that their friends can come with them. The route to follow is east on Oak street to Two Mile corner at end of cement paving, then north half a mile and east half a mile. Everybody is welcome.

## Bethlehem Aid

The Ladies Aid society of Bethlehem Lutheran church, South Seventh

street, will be entertained on Thursday afternoon at 2:30 o'clock by Mrs. Anna Saltee.

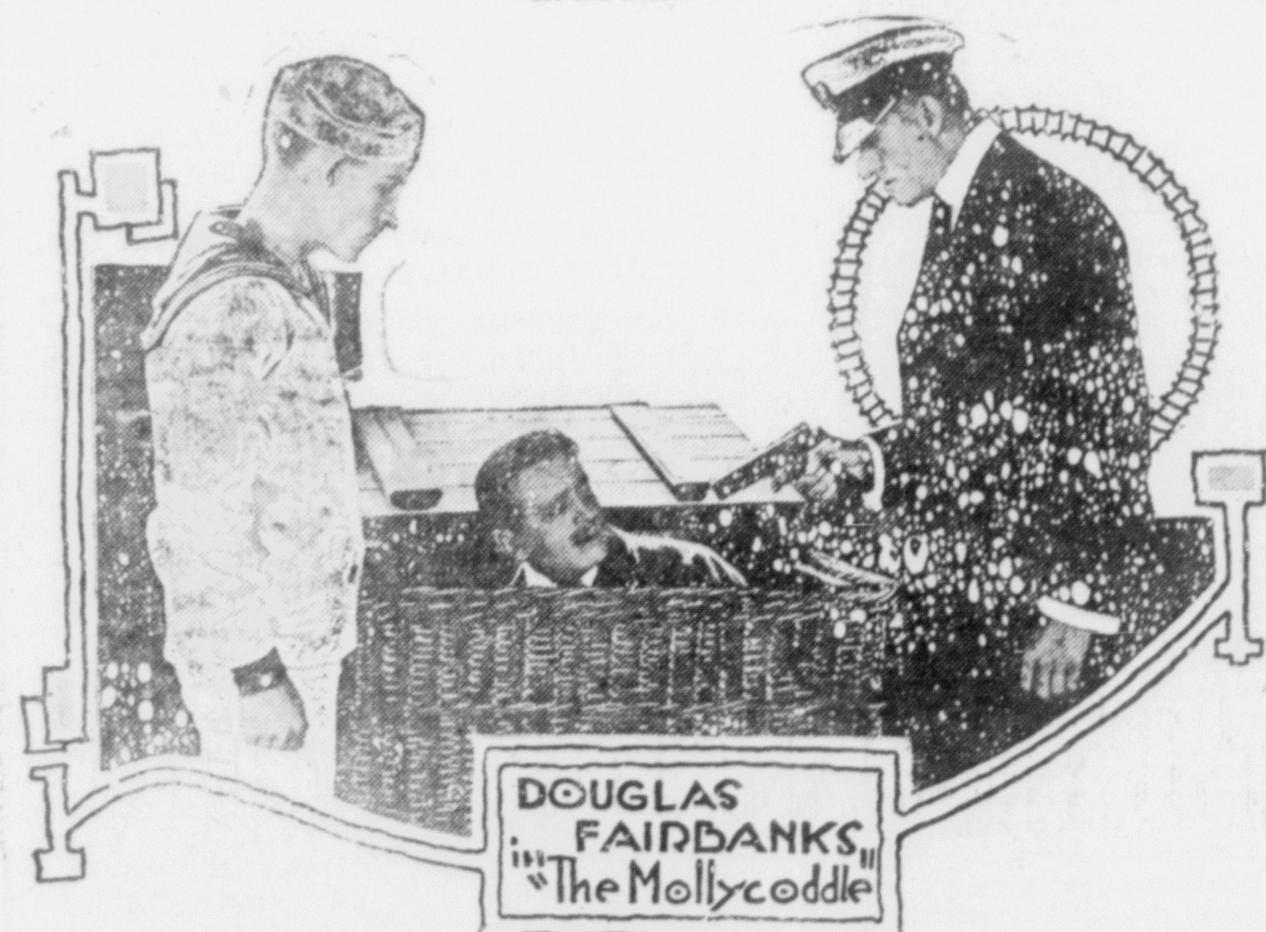

## The Pathfinder

The Pathfinder Sunday school class of the Presbyterian church will hold an ice cream social on the church lawn on Friday evening, Aug. 6.

## A "Bull Roarer."

The "bull-roarer," used by the Australian natives, is a blade of wood attached to a short string. Whirled in the air this produces a great roar.

## At the Best Theatre

In giving to the public his latest screen effort, "The Mollycoddle," Douglas Fairbanks presents the most costly motion picture of his career, representing an expenditure of more than a half million dollars. The picture will be presented at the Best theatre beginning today.

The enormous cost of "The Mollycoddle" was due to the star's desire to continue the policy he inaugurated when he became an independent producer and member of the "Big Four." At that time he declared that money would be secondary and that it would be his aim, with each succeeding production, to eclipse all previous efforts.

That Fairbanks was not merely

talking when he announced his intentions was evidenced with the release of his first and second United Artists' offerings in which it was plainly seen that considerable money and time had been spent to place entirely new material on the screen. Especially so in his last picture, "When the Clouds Roll By," considered to be one of the greatest lively productions ever filmed.

Even greater effort has been used to surpass the more prominent episodes of entertainment in "When the Clouds Roll By," with "The Mollycoddle." To make this possible the star devoted ten weeks in the preparation of the story, working out numerous innovations which have been

## NATIONAL EXPERT EXPLAINS CONDITIONS OF GAS COMPANY

The following article appeared in the Saturday Evening Post in their issue of July 3rd, which explains very well the national situation confronting gas companies:

"It is easier to force men out of an industry by a policy of low wages than it is to get them back and again develop staff efficiency. A profession or business can be damaged in a year that it can not be restored to normal efficiency in a decade. In the meantime the nation suffers in many ways and to an extent that was not dreamed of, for no business can be injured without adversely affecting other enterprises that are related to it.

"In order to bring this thought home and get it out of the realm of theory let me speak of public utilities, and take, for example, our great gas companies. Here we have an industry made up of 1024 great gas corporations, practically all of which operate under the jurisdiction of state commissions or some legislative enactment. The prices they are permitted to charge and the service they render, particularly as to quality standards under which gas must be supplied, are in most cases fixed by rule or regulation. The large advancements in the cost of materials and of labor have created a serious problem for such companies to solve.

"The total investment in the gas industry is approximately \$4,000,000,000. Artificial gas is directly supplied to about 8,250,000 consumers in approximately 4,600 cities, towns and villages throughout the country, and serves a population of more than 40,000,000 people. In the neighborhood of 62,000 miles of street mains are used to distribute gas, and this does not include the small service pipes which convey the gas from the mains to the householders' premises. It is estimated that 300,000,000,000 cu. ft. of artificial gas is produced and distributed each year in the United States. In the making of this gas in 1919 the companies used 9,000,000 tons of bituminous coal, 26,000,000 gallons of oil, 1,500,000 tons of coke and 2,000,000 tons of anthracite coal.

"The policy that is now being pursued by most of the gas companies may be expressed upon as follows: Waste of gas by faulty appliances or otherwise causes high gas bills. High bills breed complaints. Complaints mean investigations, rechecking, letter writing, delayed payments and other expense; and, worst of all, they mean dissatisfied customers. The companies believe that satisfied customers are worth more to them than the small revenue that might come from the excessive use of gas. Such a method of conducting a business should certainly foster good will, and if it does not the fault must lay with the gas people themselves through their failure to present the merits of

their service to the people at large.

"Many of our gas companies are practically starving in a land of plenty. The oil used in gas manufacture five years ago represented a cost of twelve to fifteen cents a thousand feet of gas made. At prices which some of them are compelled to pay today the cost of a thousand feet has risen from thirty to fifty cents. Oil formerly costing three and four cents a gallon is commanding twelve and fifteen cents today. A careful examination shows that steam coal such as is used by the gas companies has advanced about ninety-five per cent in five years. During the same time gas coal has gone up 70 per cent, coke 150 per cent and labor, cent.

"Of all the articles or products that enter into everyday consumption gas has shown the least increase during the past few years. From the commencement of the war until the middle of last year the price of clothing increased approximately 100 per cent and food 90 per cent. The figures showing the cost of gas in 100 cities during this same time indicate only a 12 per cent advance in the price of gas.

"The same thing that is true of gas is also true of many other public utilities. Let us not look upon these public utilities as charitable institutions, and let us beware of those politicians who seek popularity through loudly protesting that they are against this or that proposed adjustment because they are 'protectors of the people.' Most of the public utilities are the people, and they have had the poorest deal that has been handed out to any line of business during the recent strenuous times."

—Adt.

## Deep Sea Bolsheviks.

The habit of attacking and endeavoring to overthrow venerable and other institutions is not consigned to human outlaws. One of the most persistent and ingenious of nature's iconoclasts is a marine worm, commonly known as the shipworm, which swarms in certain waters, especially on the coasts of East Africa. It apparently resents the introduction of wood into its domain, and whenever it comes across a ship, wharf, or pier formed of this material, it takes at once direct action. Its method is to bore into the timber, following the trend of the grain, and whenever it encounters a knot it makes a slight detour, and again forces ahead. Thus the erection, whatever it may be, is rapidly undermined. It is stated that a wooden viaduct which was erected across the arm of the sea which connects Mombasa with the mainland was practically destroyed by these vermin of the deep.

## Is Your Health O. K.?

Your Health is going to be O. K. as long as there is complete uninterrupted connection between brain and tissue cell. But the situation is this: There are 31 pairs of nerves cables, each containing thousands of nerves which branch off from the spinal cord (the main cable from the brain), carrying the nerve energy to every tissue cell of your body. BUT they must pass out between the vertebrae of the spine, and when the vertebrae are not in alignment, the nerve cable are subject to pressure and the connection between the nerve cell and tissue cell, supplied by the impinged nerves, is not complete, the tissue cell does not get its full quota of nerve energy (health) and the RESULT IS DISEASE.

## The Economy of Using Goodyear Small Car Tires

So-called bargain tires, made up for sensational sales and offered at ridiculously low prices, do not attract careful buyers.

They are far more concerned with what they get than with what they pay because they know that in the end it is performance and not price that delivers actual tire economy.

The popularity of Goodyear Tires, of the 30x3-, 30x3 1/2- and 31x4-inch sizes, is based on the fact that they deliver exceptional mileage at exceedingly low cost.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires and Goodyear Heavy Tourist Tubes.

30 x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread \$23.50

30 x 3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why risk costly casings when such sure protection is available? 30 x 3 1/2 size \$4.50 in waterproof bag

#### SOMETHING ON TAXATION

(Contributed)

It is not to be denied that one of the principal purposes in bringing the Minnesota Editors to Crosby two weeks ago in convention assembled was to acquaint them with the local conditions at the mines in the Cuyuna district. We wish all editors in the state had been here. One of the principal purposes of the program of entertainment was a trip by auto—about fifty or more in line, to nearly all the mines. It was a pretty ride along a scenic route, but doubly so was it instructive.

To many people, too many in truth, the words iron mines and wealth either go hand in hand or are synonymous. The result is that uninformed people, of which there are also too many, and their representatives in the legislatures clamor for some share in this supposed wealth and then demand a portion of it, regardless of the consequences to the possessor of this wealth (if it exists at all) or to those who are trying to develop the wealth (if possible of development) and would be legitimately entitled to it. Wealth is only relative, and it is a term incorrectly applied by many and improperly assumed by others. Rarely is wealth concealed successfully, and the origin of wealth is generally known. We can show poverty galore here.

It was a propitious opportunity to show the editors the results of mine development in the hey-day of the war-demand. A large part of the district is dotted with abandoned properties. Of forty-two mining properties only fifteen show signs of activity, nearly all the others being abandoned and some of these with the sheriff's sale notice attached to the ruins.

The uniformed believes he can effectually (and to his satisfaction)

settle this problem of "wealth-improperly-distributed" by a special tax on iron ore. Many special forms of taxation have been presented from time to time in the legislative halls but all such bills have been christened "Tonnage Tax" bills, although many were far from that. When one gets right down to the naked truth of the situation, the reason none of these bills ever got by is due wholly not to intrigue, infidelity, or the power of the interests, as charged, but to the impracticability and the unfairness of the measures presented which qualities are bound to prevail in spite of all befogged and inaccurate arguments.

The arguments that have been presented in behalf of the various bills have too plainly exposed the proponents' lack of knowledge of the iron and steel industry as a whole and the principles and theories pertaining to the taxation of mineral resources; therefore, the bills have been void of practicality, fairness and justice and were bound to fail of adoption regardless of the strenuous efforts made in their behalf. That should be the lesson to proponents. Honesty of purpose must be accompanied by honesty of effort, and that effort should be directed to getting acquainted with the life of miners and the mining communities in which they live, learn the people and their habits, practices, and requirements, learn about the industry by actual contact and not thru long distance observations and by listening to a misinformed and half-baked preacher of economic doctrines.

It is not contended that one-day visit to the mines or a three-day visit in Crosby, with a boat ride on serpent lake, does the trick, but any one would vouchsafe that he could now present his facts to such visitors and possess a hope of finding a sympathetic understanding that he could not obtain from legislators who never go outside the confines of their political districts except to increase the distance between themselves and their premediated victims.

The situation is simple. The people in the mining towns and those operating the mines are not trying to avoid paying the tax, and owners of the ores are already paying a greater tax on ore than on any other form of property. It is easier to ascertain the true value of iron ore than it is to determine the true value of real estate or personal property, so no mistakes enter there, but they do object to paying a tax that is based on an imaginary future value or on a commodity called ore but is not an ore because it cannot be profitably extracted. The term ore, in a commercial sense (and that is the practical side of the subject) is determined wholly on the ability to mine it and sell it at a profit. If there is no profit, the ore can have only a potential value, and such values can be determined only in the

future when the ore is finally extracted profitably. In the Cuyuna district more than 80% of the undertakings were in the nature of trying to force the future into the present, but man's efforts were of no avail when pitted against natural laws of economics.

At first, and for long, the problem of "tonnage tax" was taken up as a fight directed against the mine operator. He defended himself alone. Later it developed that the mining communities were involved and they partook in the defense. Now it has developed that the communities are more concerned than are the mining companies and the former are fighting the fight without help from the mining companies. If ever these bills were labeled as being sectional and as developing sectionalism, such they are now, and no apologies or explanations will make them appear otherwise. There must be something unjust and fundamentally wrong about these bills or this peculiar situation would not exist.

Take the subject out of the political football arena, study it slowly and impartially, and then let the legislature pass a tax bill that is equitable and sound economically. In the heat of a legislative session, debate and tactics develop that suggest that the making of the bill into a law is merely a blind-folded race between political aspirants.

If only the erroneous impression could be dispelled or corrected that the bill will strike the United States Steel Corporation. Undoubtedly it is aimed at the Corporation, but as it is ineffective to that target, but death-dealing to innocent bystanders.

It is proposed herein only to call attention to the fallacious basis of thought on which the usual proponents of "tonnage tax" legislation proceed and the blind-folded aim the sponsor is taking at a nebulous target. On the other hand, it is a plea to have those who are inclined to be proponents to first study the actual situation and take their stand afterwards, but do not take a stand first and afterwards trump up non-existent facts in support.

The State of Minnesota is well advanced in the way it handles its taxation problems, but why has it no income tax. Did it ever occur to proponents of tonnage-tax that the profits from iron-mining are largely and often wholly in the pocket of the fee-owners; that nearly all mining is done under the leasing system whereby the fee owner receives a royalty out of which a substantial tax can be paid without injury to the industry. Any other tax pretending to touch royalties, and bills for such are always introduced, only mean an additional tax for the operator, who under his lease, pays all taxes assessed against the property and the ore contained.

Legislators have generally spurned

help from mining men and the latter are regularly scolded from the floor when there is defense themselves and explain. The epithets interred are dishonouring. Is it a wonder that disgust runs rampant, and a solution of the problem has thus far been impossible. Treat all sections of the state alike; treat all industries alike. Don't select only one portion of the state and one industry. Don't select a big industry and deal with it unintelligently. Live with us for a while and learn; we will not be afraid of your bills then.

#### HEAVY TRAFFIC ON NEW ROAD

Thousands of people took advantage of the opening of the new paved highway to Anoka and Minneapolis last Sunday, to take a ride on the new road, which has been closed for over a year at one point or another between Elk River and Anoka. The opening of the highway caused much rejoicing all along the line.

Sunday afternoon and evening and on into the night the highway was lined with moving automobiles, many of which came from Minneapolis and St. Paul, besides those from Elk River and Anoka. Practically every auto owner in Elk River gave the pavement a try-out. No accidents were reported, at least of a serious nature, although one Ford car went into the ditch on the Frye hill.

It is expected that the completion of the new pavement will bring thousands of tourists to Elk River during the balance of the season and the fine road will be a big advertisement for his section. During the past few months tourists have detoured at Thumplin and gone west along the other side of the Mississippi river.

The half mile of pavement between the Chudbourne and Nord crossings is still closed and is likely to remain so for some time due to the delay in completing the crossing of the spur track being put in for the Milk Producers' association. But travelers at present are not greatly inconvenienced though the gravelled road on the east side of the railroad tracks is being badly cut up by the heavy traffic.

Westward of Elk River the paving crew is working toward town, now about two miles from the village, and in another two months this 3-mile stretch of paving may be completed. —Elk River Star News.

#### SEEMS WITHOUT INFLUENCE

The League of Nations is organized with the most of the countries in the world in membership, but it appears to be without influence. This is unfortunate, as the plan has some good points which could be made helpful. The explanation that the things lacking are the United States army to enforce decrees and Uncle Sam to pay the bills is not satisfactory, and yet it may be true. Anyway, something

is seriously lacking. The big war is over, but little wars abound, and the league does not appear to be any factor of peace at all. It doesn't even seem to be on speaking terms with anybody. It has taken the attitude of a timid person who to avoid being insulted keeps still. Perhaps if it had the United States in partnership it would be bolder. It is not that the league needs our one vote in the league council, or our one vote in the league assembly. It could get along without and scarcely notice the difference—but it does need the army and the resources of this country.

The situation in that respect is not reassuring to Americans. As a partnership proposition it does not appear inviting. The prospects are not attractive to solvent concerns. We notice that all of the bankrupt countries that could get in have joined promptly, and the other bankrupt countries would be glad to join. The great thing needed now is a big solvent country to furnish an army, pay the bills and lend money to the brother members. Without that the league seems inclined to maintain a discreet and modest silence, and human nature continues about the same as it has been.—Superior Telegram.

#### Fading Shrines of Oriental Splendor

To me, after revisiting the East after an absence of ten years, it seems as if all its splendid past and all its present discontent were recorded and symbolized in the imperial palaces of Peking, Seoul and Tokyo. Ten years ago all three were the habitations of emperors, sacred spots from whose mysterious depths issued the edicts whereat men trembled and obeyed. Today the Son of Heaven and the Lord of the Morning Calm have gone their ways, to join the mortal company of kings in exile. Only his majesty of Tokyo remains, a dim, mysterious figure in the medieval seclusion of Chiyoda, a picturesque survival of old Japan, like an idol in a shrine, a sort of living Buddha in the great new city throbbing with machinery.—J. O. P. Bland in Asia.

#### Unconscious Cerebration

Apocryphal of the popular interest in the ouija board, a correspondent says: "An experiment in unconscious cerebration may be made in this way. Take a 5-cent piece and to it attach a fine silk thread with a bit of sealing wax. Then take an empty tumbler and suspend the nickel in the center of the glass, holding the thread tightly between the thumb and finger and resting the elbow on the 'funny bone.' Then, without conscious volition of the muscles, think of its movement east, west, north or south, or returning to the center. You will find that the coin will obey the thought, although you give consciously no direction for the movement."—From the Outlook.

#### Short-Sighted Mortals

The golden moments in the stream of life rush past us, and we see nothing but sand; the angel came to visit us, and we only know them when they are gone.—George Eliot.

### Dispatch Want Ads Pay

## Holding Gasoline Prices Down

"The Federal Trade Commission in report to Congress ascribes strong demand as primary cause of recent advances in price of gasoline and other petroleum products, rather than to any combination in restraint of trade." (Boston News Bureau, June 3rd, 1920.)

Gasoline prices will go down as soon as gasoline supply exceeds demand.

Only two ways are known to increase gasoline supply. First, increase the production of crude petroleum; second, to increase the yield of gasoline from the crude petroleum obtainable.

Recognizing the latter as the more practical method, the Standard Oil Company (Indiana) has discovered, through extensive research, a way to definitely increase the yield of gasoline from crude oil.

In its laboratories, modern to the last detail of equipment, chemists, engineers and experienced refiners are working continually to this end.

It was one of these men who discovered the process which has largely increased the yield of gasoline obtainable from the crude.

This, and other discoveries, together with the economies of efficiency throughout all processes of refining, have enabled the Standard Oil Company (Indiana) to exert a marked downward pressure on gasoline prices.

The Standard Oil Company (Indiana) strives at all times to deal in fairness to all the people within its territory, and today is operating its business on as small a margin of profit as is consistent with sound financing, and with safety for its 4799 stockholders, of whom no single investor owns as much as 10 per cent of the total stock.

## \$380,000 SUIT vs INLAND STEEL CO.

Thomas Keating, Fee Owner, Alleges  
Mining Was Not Properly  
Carried On

### CLAIMS VERY HEAVY DAMAGES

Iron Mine Is Located on North Cuyuna Range in SW of NE of 11-46-29

Alleging failure on the part of the Inland Steel Company to properly mine the iron lands he had leased them, Thomas Keating, fee owner, has commenced a \$380,000 suit for damages against the steel company, through his attorney, M. E. Ryan, of Brainerd.

The land in question is situated on the north range of the Cuyuna iron range in the southwest quarter of the northeast quarter of section 11, township 46, range 29, Mr. Keating owning an undivided three-fourth interest and George H. Crosby of Duluth an undivided one-fourth interest.

On or about October 9, 1919, the steel company terminated its lease. The claim is made that more than 400,000 tons of low grade ore were mined and were not treated as provided for in the lease, but were delivered partly to third persons and the remainder wasted by dumping on other land and depositing sand and other waste material on the same. Royalties claimed on ore so alleged as wasted amount to \$120,000. Claiming unskillful mining and pit work, damages for this are set at \$250,000. Claiming removal of supports and tramways from the property a further damage of \$10,000 is claimed, making the total claim as alleged one of \$380,000.

The case is set for hearing in the district court in Brainerd. Mr. Keating is one of the pioneers of the range and lived in Deerwood before making Minneapolis his home.

### SPEEDWELLS-PARK RAPIDS

Brainerd Speedwells Ran 3 to 1 Until Ninth, When Park Rapids Won by 4 to 3 Score

The Speedwells journeyed 80 miles to Park Rapids and lost to that city on Sunday in a hard fought battle by a 4 to 3 score. The game was very closely contested, the Speedwells leading three to one up to the last half of the ninth inning, when Park Rapids scored the winning runs. The Speedwells gave Hannon, who pitched fine ball, good support the entire game. There was a very large crowd on hand to witness the game, which was played in one hour twenty-five minutes.

The Speedwells scored two runs in the second inning and one in the fourth and Park Rapids got one in the fifth and three in the ninth. Park Rapids played the fast Crosby nine an eleven inning game 4 and 5, also defeated Wadena, Bemidji and Vermale. They are a live bunch at Park Rapids and are backing their team very strong, which Brainerd should do for the Speedwells, as they are all Brainerd boys who play the game for sport and are out to keep the old town on the base ball map. This is only the second loss this season for the Speedwells while they have won five games and tied two, all scoring very close.

They had a game scheduled with Pequot at Brainerd for August 8 but owing to the Fats and Lean game, which is to be played on that date for the benefit of the Brainerd ball club, they will go to Pequot instead; but will be at home on the Kooring Grounds Sunday August 15th, where they will take into camp the fast Backus nine, who beat them at Backus, and will endeavor to retaliate.

A good game is assured and if you have not seen the Speedwells on the diamond, this will be your opportunity to do so, and also witness a good clean game of base ball. Do not miss this game and be on time as all games will start at three p. m. sharp.

|                |    |   |   |    |   |   |

### TO RED LODGE, MONTANA

Louis E. Hathaway Appointed Secretary of the Chamber of Commerce of That City

Louis E. Hathaway of this city has left for Red Lodge, Montana where he has received the appointment as secretary of the Chamber of Commerce of that city.

The appointment came unsolicited by Mr. Hathaway. Fred Lincoln, secretary of the Billings Chamber of Commerce, and formerly of this city was asked by Red Lodge to locate a man for the position and he recommended Mr. Hathaway at once and the appointment was received almost immediately.

Mr. Hathaway has received recognition from the U. S. government for his efficient work over seas and has an enviable record as a community worker both at home and in the east.

He has been a close student of civic welfare and community work and is splendidly equipped for the work in Red Lodge.

Mr. Hathaway has been spending the summer at his home "Tanglewood" on Clark lake, Hubert.

## COMMUNITY PICNIC HELD LABOR DAY

Center Township People Sponsors for the Picnic at Russell Place Near Merrifield

### PROGRAM TO BE OUT SOON

Location of Picnic for City and Country People Near Site of Old Log School House

Farmers and city dwellers will join in a large community picnic at the home of Thomas Russell, three miles north of Merrifield on Labor Day, Sept. 6. Center township people are sponsors for the picnic.

The site of the community outing is where the old log school house was located on the Cross Lake road or State Road No. 3. The full program will be announced later.

### YANKEE BAKERY

Change in Management, Victor Kaas Retires and F. R. Ziske Takes It Over Again

There has been a change in the management of the Yankee Bakery of the Ransford block. Victor Kaas, who conducted it eight months, has retired and F. R. Ziske has again taken it over.

Mr. Ziske, who first established the bakery, will continue as a traveling salesman for Sylvester-Nichols of Little Falls and residing in Brainerd. He has secured a competent baker to take charge and the Yankee Bakery will continue supplying bakery wants of the city.

## TO POUR THIRD FLOOR SLAB

Work at the New Court House is Most Interesting and Architect Invites Citizens

### TO INSPECT THE WORK DONE

Hollow Tile, Steel Rods, Cement Joists and Cement Floor Make a Fireproof Slab

At the new court house the slab for the third floor will be poured the latter part of the week. Architect W. T. Harris of the firm of Alden & Harris, of St. Paul, under whose personal supervision the building is being constructed, will be glad to show citizens interested in the manner in which the fireproof slab is constructed.

Mr. Harris has an office at the building and those who wish to see the work should apply to him there. The invitation is extended to include the wives of citizens.

Few people realize what is going into the court house in the way of materials and they should be able to tell visitors and strangers of what material and the manner in which the new county building is constructed.

The cement slab to be poured measures 90 by 120 feet in size and 10 inches in depth. The slab is composed of concrete joists reinforced with steel rods. The joists are separated with burned clay hollow tile.

It will take three days to pour the cement, said Architect Harris.

## BRAINERD'S ODDEST STORIES OF TODAY

Brainerd man ontored to Little Falls, bumped into a truck while driving over bumpy streets and had to get a new radiator for his flivver.

Monday is losing its prestige as a wash day. People blessed with electric washers start them any old time. Washing has lost more than half its terror and labor since the electrica were introduced into Brainerd.

Police broke up the poker game of six traveling men in a St. Cloud hotel. The cops got there just as the jack pot of \$39.50 was to be opened. The drummers said they played because bedbugs made it impossible for them to sleep. This state of affairs in St. Cloud harks back to the lumberjack days in Brainerd. Can St. Cloud be retrograding?

Coincident with the gas company's appeal for a raise in rates in Brainerd, comes the same appeal addressed to St. Cloud people.

## Card of Thanks

We wish to thank kind friends and neighbors, the A. O. U. W. lodge and members of the congregation for the beautiful floral offerings and kindness shown us during the sickness and death of my brother, and uncle Casper Erickson.

Mr. and Mrs. Elmer Lee

## HAPPY WOMEN

Plenty of Them in Brainerd, and Good Reason for It

Wouldn't any woman be happy. After years of backache suffering. Days of misery, nights of unrest. The distress of urinary troubles. When she finds freedom.

Many readers will profit by the following:

Mrs. W. H. Everest, 897 S. Seventh St., Brainerd, says: "I used to have terrible pains in my back; it fairly made me sick. After an exertion, my back would be sore and lame and it was a hard matter to get through with my housework. My kidneys didn't act as they should and as Doan's Kidney Pills had been used in the family with great results, I started to take them. It was no time before I got relief and I always get the same good results when I use Doan's Kidney Pills."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Everest had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

## Unfair to Both Parties

When you ask for a standard article in its line and a substitute or imitation is forced upon you, two parties are wronged by the transaction—yourself and the maker of the article you wanted. It pays to get genuine Foley Kidney Pills for backache, rheumatic pains and other symptoms of kidney and bladder trouble. H. P. Dunn, druggist.

## AMATEUR WIRELESS OUTFIT PLANNED

Neighbors View With Deep Interest High Poles and Aerial Put up On South Seventh Street

### TWO BRAINERD MEN TO SEND

Hope to Have Plant in Operation to Get Some Election Dope Early In November

Neighbors on the south side were surprised when they saw two large poles hoisted at the home of E. E. McQuillin, 709 South Seventh street and four wires strung between poles. It looked like a set of clothes lines, but the height, 50 feet, was appalling for any housewife when it came to hanging out wash.

The mystery was cleared when Everett McQuillin said he and his brother-in-law, Roy Sherlund, had made a wireless outfit. One pole is 55 feet high and the other 45 feet. Practically the whole equipment and instruments was made by the young men and the supreme test will show whether it works as good as anticipated.

A fellow enthusiast in wireless telegraphy is Rev. J. H. Haucker of Pequot and he hopes to communicate with Brainerd by wireless. Young Sherlund and McQuillin have had ample experience in electrical work so far as it concerns cars and batteries.

"We hope to be running good before November", said McQuillin, "so that we can listen in and get some of the election dope."

## SAD STORY OF NEGLECTED MAN

Five Able Bodied Sons Do Nothing for Him and He is Forced to go to St. Cloud Home for Aged

### HE IS NOW A CHARITY INMATE

Franklin Lamkin, Three Score and Ten, Feeble and Weary, With Five Grown Sons

(St. Cloud Times)  
Franklin Lamkin, feeble and weary and having lived his three-score and ten, is today a charity inmate of the city old folks' home, though five grown sons, who have apparently forgotten their father, should be able to support him in the days of his "sere and yellow leaf."

The old man has been kept at the St. Joseph home for the past 12 months, and the only cause of his transfer at the present time to the city institution is to enable the authorities to collect from the sons the amount that will pay for his keep until death comes. Mr. Lamkin has been a resident of St. Cloud for five years, and until a year ago lived with a son in this city. The loss of his wife by death resulted in the son's leaving the city and the placing of the father in the Sisters' home, with a two months' advance payment for his board. Although the authorities have been in communication with the five boys, they have neglected to pay towards the father's comfort for ten months, and the St. Joseph's home has been his home until this morning when the authorities decided that contributions from the younger generation of Lamkins could best be enforced by the city authorities.

The boys, two of whom were in service during the war, live in various northwestern cities, including Brainerd, Crosby and Duluth, and the matter of demanding that they pay the small amounts due for their father's support has been referred to the city attorney. St. Joseph's home displayed real charity in retaining the unpaid inmate, father of able-bodied sons, for the greater part of the past year and the Sisters permitted his transfer only in order that the burden of his expense should fall rightly on the shoulders of the ones whom he fathered and raised to manhood.

## NOTICE

In order to meet the increase in wages the following raise in Ice Prices will be in force:

|                |                |

# Ford

THE UNIVERSAL CAR

## Buy Now While Deliveries Are Possible

Buy your Ford car now while deliveries are possible. There is only a limited, specified number of Ford cars allotted to this territory. You will be wise to buy one now while we can get cars to deliver. A signed order with us is your protection.

Even our small allotment of Ford cars is not shipped us until we have bona-fide orders for them. This is because the demand for Ford cars all over the country is greater than the supply or production. So, don't depend on spring delivery.

Only so many Ford cars will be shipped in to this territory; only so many will be able to get Ford cars. If you would be forehanded and plan ahead, you will have us deliver you a Ford car as soon as possible. Then you will have it to use whenever you want it.

The Ford is an all year utility—in your home or business. Its serviceability, its ease of operation, its low cost of maintenance has made it such. It will serve you the year around. Spring and summer, autumn and winter, it is your servant; always ready to do your bidding.

## LITTLE FALLS TEAM DISBANDS

Claimed Attendance Has Not Been Up  
to Expectations, Finances Were  
Getting Low

### DIRECTORS ORDERED A HALT

60 Per Cent of Several Big Gates  
Were Lost, Aggregating a Pro-  
bable Loss of \$400

(Little Falls Transcript)

The Little Falls baseball team ended its playing season Monday afternoon when, at the direction of the board of directors, Manager Ed. Nelson paid them off. The reasons given for the disbanding of the team at this time were many.

The attendance had not been what it might have been. Finances are getting low and it was thought better to disband at this time than to register a loss. A poor start, with bad breaks, such as the losing of Wood and Berger at practically the best part of the season, had a bad effect upon the attendance. Three men hired from Michigan did not come. After June 15 other men could not be secured to replace them. Sixty per cent of several big gates was lost, aggregating probably \$400 loss to the local team. Efforts were made to get hitters for the team, but this was difficult.

The directors were very reluctant in disbanding at this time and it was only because of the advisability of it that this was done. The directors state that if the team had been playing satisfactory ball a tour of southern Minnesota would have been made as planned several weeks ago. A full complement of suits and equipment will be at the disposal of future teams. Thirteen out of 25 games were won this year and all lost were by narrow margins. Many good games were played here and away, and while some games were lost, the fans got some good baseball.

A full financial report giving the

names of donors to the team and all money expended and received will be published by the directors in the near future.

### Players Dissatisfied

Several members of the team are of the opinion that they were not given right treatment, stating that they were not given any notice that playing was to cease. They claim that they could have secured berths for the balance of the season if they had been given a week's notice.

"Red" Taber, John Armstrong and Ed. Taylor, who have been playing on the Little Falls team left for Madison where they will finish the season with the club there.

Len Schroeder and "Pawnee" Berger departed for their homes in the cities after the breakup of the Little Falls ball team was announced.

Steve Bessemer left Little Falls for Bethlehem, Pa., where he will visit at his home. "Bess" played with the team here up to the last four games. He will not return to Dubuque college again this year, but will enter an eastern school.

Albert Broman has returned home from the St. Joseph hospital where he was operated on for appendicitis. He is getting along nicely and will soon be able to return to his work as a printer in the Brainerd Dispatch office.

### How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine.

Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Medicine acts thru the Blood on the Mucous surfaces, expelling the Poison from the Blood and healing the diseased portions.

After you have taken Hall's Catarrh Medicine for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Medicine at once and get rid of catarrh. Send for testimonials, free.

## RESEMBLE ACRES OF LILIES

Visitor's Beautiful Description of the  
American Cemeteries in France  
—Exquisite in Uniformity.

Though American relatives usually want to plant flowers on the graves of their sons or brothers in the American army cemeteries in France, an army ruling forbidding this has been adhered to. The cemeteries, a uniform stretch of green grass with white crosses, look like "acres of white lilies," according to Miss Elsie Goddard, a Wesleyan graduate who has returned to this country after having had super-

vision of the Y. W. C. A. rest huts built for the comfort of relatives visiting the graves in four of the American cemeteries in France. "At first every one wants to plant flowers on the grave they love," says Miss Goddard, "but they soon see that the army ruling keeps the cemeteries most beautiful and impressive because of the uniformity. Cut flowers can be placed on graves and flowers can be planted in the flower beds near by, but not on the graves. The French people who are eager to decorate the graves in some parts are often surprised at this ruling, but our cemeteries, as cared for, are wonderfully impressive. After visiting them few Americans want to take the bodies of their boys home, though they have been determined to do it before they came." The Y. W. C. A. and Red Cross combine in maintaining rest huts at Romagne, Bony, Belleau Woods and Fere-en-Tardenois. "No matter how prepared a mother and father are for what they expect to see, the first sight of the field of American graves overwhelms them," says Miss Goddard.

Columbus Properly Honored.  
According to the Postal Guide, there are 21 cities and towns in the United States by this name.

### Tammany, "The Affable."

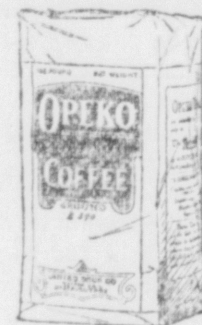

Tammany was the name of an Indian sachem in the days of William Penn, an exchange states. He was great chief of the Delaware Indians and sold land to Penn. In the aboriginal tongue his name means "the affable," and tradition credits him with being a lover of peace; further than this the legends and adventures attached to his name are the inventions of members of different American societies which held May day festivals in Maryland and Pennsylvania, and adopting the sachem as their patron saint, commonly described themselves as "Sons of St. Tammany."

A Verdict.  
One day I invited my sister's school teacher to my house. The teacher, who was high-headed, began to tell us some of his experiences. He told us that while traveling through Kansas there was a terrible cyclone. He said it was so bad that it pulled out everything in sight by the roots. After looking at him a while my sister asked: "Is that why you're bald-headed?"

### First British Railway.

The first railway was built for the British coal mines. It was a horse car track devised and used early in the sixteenth century.

# THE Rexall STORE

Important Notice!  
Owing to conditions existing in the coffee market, it is impossible to offer Opeko Breakfast Coffee as a regular one-cent sale item. It is offered to you, however, at a very low price, and at practically a profit of 1c a pound to the dealer. This is an unusually good quality and consists of the finest blends of Coffee that can be obtained at anywhere near the price we offer it.

SPECIAL THIS SALE  
1 pound 55c 2 pounds 86c  
Nowhere in America except at the Rexall Store can coffee of such a quality be purchased at this price.

## THURSDAY, FRIDAY and SATURDAY AUGUST 5th, 6th, and 7th

WHAT IS A ONE-CENT SALE? It is a sale where you buy an item at the regular price—then another item of the same kind for 1c. As an illustration: The standard price of Rexall Tooth Paste is 25c. You buy a tube at this price, and by paying 1c more, or 26c, you get two tubes. Every article in this sale is a high-class standard piece of merchandise, just the same as we sell you every day at regular prices and have sold you for years.

A NEW WAY OF ADVERTISING This sale was developed by the United Drug Co. as an advertising plan. Rather than spend large sums of money in other ways to convince you of the merit of these goods, they are spending it on this sale in permitting us to sell you a full-size package of high standard merchandise for 1c. It costs money to get new customers, and the loss taken on this sale will be well spent if the goods please you.

## Johnson's Pharmacy

The Rexall Store

Brainerd,

Minnesota

Important Notice!  
Owing to conditions existing in the coffee market, it is impossible to offer Opeko Breakfast Coffee as a regular one-cent sale item. It is offered to you, however, at a very low price, and at practically a profit of 1c a pound to the dealer. This is an unusually good quality and consists of the finest blends of Coffee that can be obtained at anywhere near the price we offer it.

SPECIAL THIS SALE  
1 pound 55c 2 pounds 86c  
Nowhere in America except at the Rexall Store can coffee of such a quality be purchased at this price.

200 Cups of Tea for 1 Cent  
**LIGGETT'S OPEKO TEA**
